Clinicians/ Presenters:

George & Sami Hernandez

George and Sami Hernandez are the trainers and owners of Diamond Crest Enterprise. The family run business has been in Bakersfield for over 30 years. They have trained all around show horses, cutters, reiners and countless other disciplines in the equine industry.

Chip Cardon

Growing up in Maryland and making his way west has given him a wide perspective and variety of equine disciplines; from riding ranch horses and being a full time cowboy to training western pleasure horses and for the last 30 plus years training cutting/cow horses.

Jessica Cardon

Jess has grown up riding and ranching in the Caliente and Tehachapi mountains. She and fiance Josh run commercial beef cattle. Showing cutting/cow horses has given a solid platform in her horsemanship. She continues to compete in cowhorse, versatility, roping, and rodeo.
