

Happy Holidays

The Holidays are just around the corner.

Septic System homeowners need to do a few extra steps to prepare their homes for big dinners and extended stays.

Some helpful tips to maintain your system during the festivities are:

- Dump fats, oils and greases in the trash can - not down the kitchen sink
- Do not allow guests to park on top of the septic drain field or tank
- Stagger use of water-based appliances
- Run the dishwasher when full

Don't Delay, call Sim Sanitation at 661.823.8442 to schedule your septic tank pumping to ensure your system is ready for the Holiday Season.
